Traditional Wood  
Meets

## TECHNOLOGY

**D**uraMax has combined Poly Vinyl Extrusion with Molecular Technology to deliver the only fence that brings the real look and feel of a wood fence in a low maintenance vinyl product.

**B**eauty, elegance and a lifetime of care free performance is what you will get from our proprietary durawood fencing.

Engineered For The Southwest Sun™

# DuraWood®

The Only Durable Vinyl Product  
That Looks And Feels Like

## REAL WOOD

**A**t DuraMax we've engineered the perfect substitute for wood fencing. A durable vinyl product with a real wood texture designed to look and feel like wood. Unlike other products that have an imitation wood emboss or fake wood color, DuraWood captures the look and feel of a real sanded wood plank from every post to every cap.

But that's not all, DuraWood delivers the advantage of durability and low maintenance. Unlike wood fence that rots, stains, pits and draws termites, DuraWood is very low maintenance and overcomes many of the common problems found in wood.

**N**ow you can finally say GoodBye to settling for a wood fence that needs to be treated and stained every year. Not only a very costly process but a pointless one because wood always ends up looking old.

DuraWood is the by far the BEST Wood product available in the industry today with the "Real Look and Feel" of wood.
